

# ONLINE PRIVACY POLICY NOTICE FOR GOOGLE ANALYTICS

At The Summit Federal Credit Union we take protecting your personal privacy extremely seriously. This page describes The Summit FCUs policies and procedures on the collection, use, and disclosure of your information collected from Google Analytics.

Review our [Privacy Policy Notice](#) to see how the Summit FCU handles your personal information.

We use Google Analytics to see how visitors are using [www.summitfcu.org](http://www.summitfcu.org). Google Analytics reports traffic patterns anonymously. We may collect non-identifying information, such as the type of browser and browser version you are using to access our website, the day and time you access our website, the referring website that linked you directly to our website (if you arrived here by clicking a link on another website), and limited geographic information. **No personally identifiable information is collected for this purpose.**

Like many websites, we use “cookie” technology. Cookies are small text files that this website places within your browser so that it can remember you when you show up again later. None of these cookies store any of your personal information. We use cookies to enhance your experience on our website while also protecting your privacy. In addition, Google Analytics uses cookies for the collection of web metrics and to track visitor interactions; however, **The Summit FCU does not collect any personally identifiable information about visitors to our Web pages.** Traffic statistics for this website are only reported to us anonymously and in the aggregate, and no information provided by Google Analytics is traceable to any specific individual. Although Google Analytics plants a permanent cookie on your web browser to identify you as a unique user the next time you visit this site, the cookie cannot be used by anyone but Google. Google’s ability to use and share information collected by Google Analytics about your visits to this site is restricted by the [Google Analytics Terms of Use](#) and the [Google Privacy Policy](#).

Most Internet browsers automatically accept cookies. Although cookies help us create a better experience for you, most of this website will also work without them. If you don’t want to accept cookies, you can change your browser’s options to not accept them or to prompt you before accepting them. You can add an [Opt-out Browser Add-on](#) for Google Analytics or you can prevent Google Analytics from recognizing you on return visits to this site by [disabling cookies](#) on your browser.
