TRUTH-IN-SAVINGS ACCOUNT DISCLOSURES

- Rate Information.** The dividend rate and annual percentage yield may change every dividend period. The dividend rate for your account is declared by the credit union Board of Directors. The Money Market and the MoneyMax Account are tiered rate accounts. Once a particular balance range is met, the dividend rate and annual percentage yield for that average daily balance range will apply to the full balance of your account.
- Nature of Dividends.** Dividends are paid from current income and available earnings after required transfers to reserves at the end of the dividend period.
- Dividend Compounding and Crediting.** The dividend period is monthly. Dividends will be compounded and posted to your account every month.
- Average daily balance computation method.** Dividends are calculated by the average daily balance method which applies a periodic rate to the average daily balance in the account for the period. The average daily balance is calculated by adding the balance in the account for each day of the period and dividing that figure by the number of days in the period. The period we use is the monthly statement cycle.
- Accrual of Dividends.** For all accounts, dividends will begin to accrue on noncash deposits (e.g. checks) on the business day you make the deposit to your account.
- Balance Information.** You must complete payment of one share (\$5.00/par value) in your Primary Savings account as a condition of admission to membership and to maintain membership. The minimum balance requirements applicable to each account are set forth in the Rate Schedule. (Note: If a Summit savings account has been inactive for more than one year and has less than a \$100 balance, the funds will be transferred to the member's Primary Savings account. If a Summit Automatic Loan Payment Share account has been inactive for more than one year, the entire balance of the Automatic Loan Payment Share account will be transferred to the member's Primary Savings account. If a Summit Money Market or MoneyMax Account has been inactive for more than one year and has less than a \$1,500 balance, the funds will be transferred to the member's Primary Savings account. This transfer is not contingent on the status of any other services the member may have with The Summit or the age of the member.)
- Transaction Limitations.** We reserve the right at any time to require not less than seven days notice in writing before each withdrawal from an interest-bearing account other than a time deposit, or from any other savings account as defined by Regulation D.
- Account Limitations.** The maximum automated teller machine withdrawal using the ATM Card is \$300.00 per day. The maximum automated teller machine withdrawal using the Visa® Debit Card is \$500.00 per day. The maximum automated teller machine deposit using either the ATM Card or the Visa® Debit Card is \$15,000.00 per day. The maximum branch teller cash withdrawal is \$3,000.00 per day.
- Courtesy Pay.** The Credit Union may choose to cover certain withdrawal requests (except on transactions that are ATM or one-time Visa® Debit Card Transactions) from your checking accounts in excess of the available balance in your account. If you are eligible and you opt-in, you may participate in the Courtesy Pay Select Program providing overdraft protection for ATM and one-time Visa Debit Card transactions. Courtesy Pay & Courtesy Pay Select is only available to those members whose accounts are in good standing, the primary member on the account is 18 years of age or older. We can terminate this service at any time in our sole discretion. Any overdraft resulting from a Courtesy Pay or Courtesy Pay Select transaction must be repaid within 10 days after the date of the transaction. Refer to the Membership and Account Agreement for further details.
